### Edgesoft Inc. Invited to Present at Apple iPad & iPhone Business Briefing

Edgesoft Inc. has been invited to present **miFIRE™**, its iPad solution for Fire Departments at the annual Apple iPad & iPhone Business Briefing. Edgesoft's native iPad app for mobile inspections combines the sleek and user friendly interface of the Apple iPad with Verizon Wireless' world class wireless network to dramatically reduce the workload associated with fire life and safety inspections.

This event is an exclusive briefing of the latest information about how the iPhone & iPad work in government and public safety environments. Topics will include integration and deployment, security, and apps for government and public safety. The briefing is jointly hosted by Apple and Verizon Wireless.

Please join us at Pacific Palms Hotel & Conference Center located at One Industry Hills Pkwy, City of Industry, CA 91744. The event will be held on May 1<sup>st</sup>, from 9:00am to 12:30pm. Registration is free of charge, and will begin at 8:30am.
