

City of Lynwood, CA Goes Virtual and Paperless by Modernizing Land Management Systems

Posted on June 6, 2023

Manhattan Beach, CA — EdgeSoft, Inc., a leading software solutions provider for local and state government agencies, is delighted to announce that the City of Lynwood, CA has chosen EdgeSoft, Inc.'s cutting-edge online permitting and licensing software system, ePALS™ to drive the city's paperless initiative and position itself as a technology leader in the region.

The new land management software will enhance government department efficiencies by saving time and reducing costs, while providing citizens with a safe and convenient way to conduct business with the city. The system empowers Community Development Department users to effectively manage data and workflows.

Building and Code Compliance inspectors will be equipped with the ability to conduct fieldwork using mobile devices. City planners and permit techs will

have all the GIS and historical land data at their fingertips. The online public portal will enable residents, business owners, and contractors to submit applications and pay associated fees with ease.

About The City of Lynwood, CA

Lynwood is a city in Los Angeles County, California that is located near South Gate and Compton in the central portion of the Los Angeles Basin. The current population of Lynwood is 66,512 based on our projections of the latest US Census estimates.
